PRESS RELEASE

## Algorithmica Expands to Denmark with New Copenhagen Office

Algorithmica is pleased to announce the opening of a new office in Denmark. The Copenhagen office will allow Algorithmica to increase customer service and availability in the region, in line with Algorithmica's commitment to delivering innovative and cutting-edge solutions to their clients.

*"The new office in Copenhagen is part of our on-going expansion and will enable us to better serve our growing customer base in the Nordics and Europe"* **says Niclas Holm, CEO and founder of Algorithmica.**

The new office, which is co-located with FCG Denmark's office in Copenhagen, will be headed by Poul Stilling, Algorithmica's newly appointed Sales Director, with nearly four decades of experience in financial market data and advanced transaction solutions.

*"I look forward to contribute to take Algorithmica's business to the next stage of growth. Our new office in the heart of Copenhagen is one important step in the company's strategic plan to grow its presence in both the Nordic and European markets. I am confident that Algorithmica's products will attract the attention of financial professionals in Denmark and beyond"* **says Poul Stilling, Country Manager for Algorithmica and Sales Director.**

Algorithmica's new office in Copenhagen is located at Christians Brygge 28, 1<sup>st</sup> floor.

### About Algorithmica

Algorithmica is a leading provider of efficient tools for real-time quantitative analysis, enabling our clients to improve price, trade, and risk management of financial transactions. Solutions built for speed and performance are powered by Quantlab®, the award-winning software development platform for quantitative financial analysis. In addition, Algorithmica provides products for enterprise-wide risk management and market data management including time-series data, static data, and calculated data.

Part of the FCG group and with head office in Stockholm, Sweden, customers include well-known financial institutions mainly in Northern Europe and London.
